

Crystal Reports 10.0

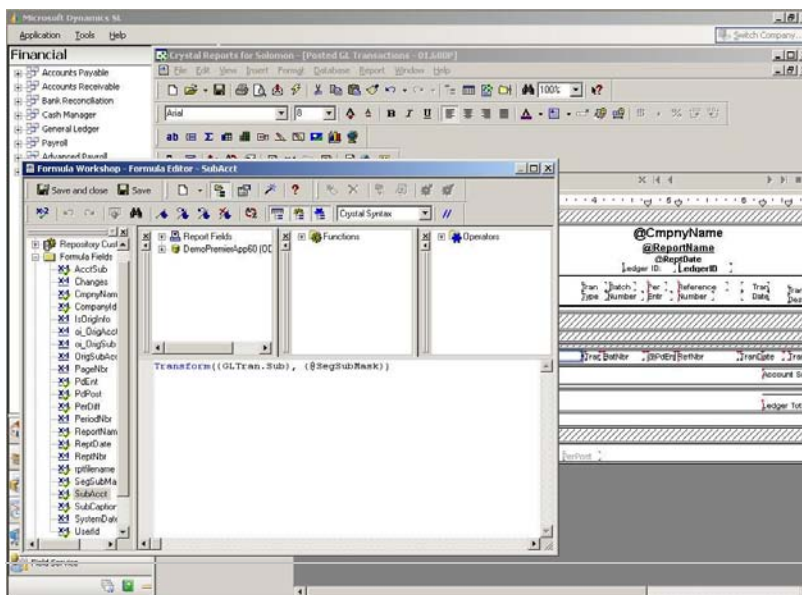

Microsoft Dynamics™ SL

BENEFITS

- **Work the way you want**
Modify the form and content of any of the existing standard reports included with Microsoft Dynamics SL by using Crystal Reports — or create an unlimited number of new reports.
- **Customize reports**
Create reports from existing or custom database tables, or modify standard reports to meet your specific needs. Add or delete fields, add or refine data filtering and sorting, calculate totals and averages, combine multiple databases, and much more.
- **Increase reporting impact**
Use a variety of fonts, graphics files, boxes, lines, and even embedded objects from other applications, along with integrated graphing and customizable styles. The Reports Expert Wizard guides you to the report style you need and assists you in customizing reports to look the way you want them to.
- **Study data easily**
Analyze data with multi-pass reporting for example, a first pass to compute the total and a second pass to compute a percentage of total — and unlimited sorting. You can easily access any Microsoft SQL Server™ database, as well as integrate queries from multiple databases into a single report.
- **Maintain data integrity**
Define database access rights for users who can create reports as well as for which fields can be included on reports. For example, you can limit which users

Modify any existing report or create an unlimited number of custom reports to suit your needs with Crystal Reports 10.0, the industry-leading report writer included with Microsoft Dynamics SL System Manager. Crystal Reports provides powerful reporting and query capabilities for both novice and experienced users. Use it to select, analyze, summarize, and present data in almost any way imaginable.

Modify existing reports or create limitless custom reports to suit your needs.

FEATURES

BENEFITS

Extensive Web Reporting Capabilities	Create new reports and give your customers, suppliers, and employees immediate access to presentation-quality, information-rich reports via the Web, using the most advanced viewer type supported by your browser.
Designed for Efficiency	Find the information you need easily using a visual "group tree" with drill-down and search capability. Reports are delivered by the report server one page at a time to facilitate faster viewing.
Industry-Standard Reporting	Help ensure your return on investment with a market-leading reporting tool and more than 900 standard, customizable reports.
Rapid Report Design	Create professional-looking reports in minutes with the Reports Expert Wizard.
Flexible Reporting	Choose from a broad variety of report types, place data in your report wherever you want, and customize it to look any way you choose. Reports can be as simple or as complex as you require.
Presentation-Quality Reporting	Add greater impact to your reports using charts and graphs. Integrated graphing includes more than 80 customizable styles and can reflect detail, group, or formula data as required.
Increased Reporting Impact	Select from a variety of fonts, graphics files, boxes, lines, and even embedded objects from other applications. Exercise precise control over the placement of report objects.
Powerful Data Analysis	Analyze your data with capabilities such as multi-pass reporting and unlimited sorting, including sorting on groups, custom sorting, and Top N/Bottom N sorting. Sub-reports allow viewing of the same data in different ways.
Extensive Calculations	Perform simple-to-complex calculations using Crystal Reports' powerful formula language. The language can also be extended using advanced programming techniques to create even more powerful analysis.
Variable Report Delivery	Distribute completed reports electronically through e-mail, your intranet, and the Web. Export report data to many popular file formats, including: Microsoft Office Excel, Microsoft Office Word, CSV, and ASCII text.
Integrated Reporting Solutions	Develop advanced, integrated report solutions. Application developers can use the Automation Server Interface to the Crystal Reports Engine to further increase reporting customization and impact.
